

5 March 2010

**ASX ANNOUNCEMENT**

---

**AUTOMOTIVE TECHNOLOGY GROUP STRENGTHENS BOARD**

Leading Australian clean automotive technology company Automotive Technology Group (ATG) (ASX: ATJ) is pleased to announce the appointment of Mr Richard O'Brien to the Board.

Mr O'Brien has joined the Board as an independent non-executive director, effective 3 March 2010.

He has vast experience and expertise in company financial management and administration, which has been acquired through more than 35 years in senior finance and administration roles - including company secretary and chief accountant with two mining companies.

Mr O'Brien has also held the position of Financial Accountant for the State Energy Commission of Western Australia and in this role was responsible for the preparation of the annual statutory financial reports of the organisation. He has also been the Manager of Customer Services for the same organisation.

He holds a Bachelor of Business, Post Graduate Diploma in Business and is a Fellow of the Australian Society of CPA's.

The Company is delighted to have secured the services of such a high caliber executive as Mr O'Brien. His experience and expertise in financial management will be invaluable to ATG and his role as an independent director will add to the Company's already stringent corporate governance practices.

The Board of ATG looks forward to working closely with Mr O'Brien to help realize its corporate objectives for the benefit of the Company and its shareholders.

**About Automotive Technology Group**

Automotive Technology Group listed on the ASX in May 2008. It is the designer and manufacturer of the patented low emissions, high fuel efficiency Sprintex® supercharger product range. The Company's vision is to be a leading developer and manufacturer of innovative green automotive technologies to world markets, in particular in the manufacturer of superchargers.

Motor vehicle and motorcycle manufacturers are increasingly turning to Superchargers to help meet tougher vehicle emissions and fuel efficiency targets being set by governments globally, and the Sprintex® Supercharger achieves these two goals while ensuring that engine performance is not compromised.

The Company operates from a specialist research and development, and manufacturing facility in Perth, Western Australia.
